

ANNOUNCEMENT OF SUPERCEDEURE OF CERTAIN KELLY AEROSPACE POWER SYSTEMS MAGNA FLITE STARTERS

INTRODUCTION:

Kelly Aerospace Power Systems' (KAPS) R & D engineering group has designed a new series of starters for Lycoming engines that are now available for sale. The E-Drive, inline starter which was introduced in December 2006 and the X-Drive external solenoid starter are being phased in to replace our factory new Magnaflite starters. The Magnaflite starters were introduced over a decade ago and became the top selling starter in the world for Lycoming engines. The new E & X Drive starters add another progression to aviation by providing high quality, powerful and lightweight aircraft starters, adding to the legacy of the highly successful Magnaflite series. Our website, www.kellyaerospace.com offers technical and application information, warranty policy, and starter comparisons as well as general information about Kelly Aerospace Power Systems.

This service letter announces the supercedure of the below Kelly Aerospace Power Systems Magnaflite lightweight starter by the newly available E & X Drive starters.
